Course Content:

We run a number of courses where each course content is specifically designed with engaging active learning activities. On each course you will learn how to deal with a wide range of first aid situations within an early years setting including: managing an unresponsive casualty, paediatric CPR, AED, choking, shock, bleeding and wounds, meningitis, hypothermia and heatstroke and anaphylaxis.

Delivery:

Courses are delivered by a Fully Qualified and Experienced Teacher & First Aid Instructor with DBS. Each trainee receives a course manual.

Training & assessment:

Courses are all based around core competencies, but can be customised to suit your particular training requirements
Training is in accordance with the *DofE Early Years Foundation Stage (EYFS) framework*

Certification:

- Accredited by SQA Accreditation and regulated by Ofqual
- Qualifications lasts for three years
- Your course manual can act as a guide throughout the duration of your qualification, so it's always there to refer back to should you ever need it.

An annual refresher to keep knowledge up-to-date is recommended.

Venue and Location:

Courses are available in the following areas:

West Midlands, Lancashire, Sussex and West Yorkshire.

We can be flexible with the days, time (including out of business times) and location.

Holding courses at your setting are the most cost effective as there are no staff travelling costs.

Different rates apply to larger groups or for provision across national or regional offices

Trainee Requirements:

Trainees need to meet the following prerequisite requirements:

- Be at least 16 years of age
- Be capable of kneeling on the floor to deliver CPR
- It is advisable that learners have a minimum of level 1 in literacy and numeracy or equivalent

There may be additional requirements due to the Covid-19 pandemic. These will be based on government and industry advice. Further details can be found the website at the time of booking and in trainee packs.

Quality Assurance:

All our courses are delivered under our quality standards assurance Policy (Available to download)

Supporting Addition Needs:

We are happy to support many additional needs, however our ability to do so is limited by the time available and the number of people who require assistance. Arrangements can be often make to support trainees if requested in advance. *Please contact us if you need any guidance.*
